

SHAWN TENNITY

585-455-9166 | shawntennity@gmail.com | [github: stennity8](#) | [LinkedIn](#)

Full stack software engineer with experience in JavaScript, React, and Ruby on Rails. Lifelong learner with a background in Civil Engineering, Hospitality Management and Finance. Extensive experience in project management and problem solving. Over nine years of professional experience, including over two years in management role, provides a unique combination of technical and soft skills.

TECHNICAL PROJECTS - *Note: Demos may take a little time to load due to Heroku putting apps in sleep mode.

WatchList - [Github Client](#) | [Github API](#) | [Demo](#)

An app to keep track of TV shows for your next binge session.

- Utilized The Movie Database API to pull and parse data of TV shows based on a user search or what is popular.
- Implemented user interface employing React and Redux with Semantic-UI for styling.
- Developed a Rails API backend for handling user authorization and storing of user's watchlist.

Issue Tracker - [Github Client](#) | [Github API](#) | [Demo](#)

An issue tracker to keep track of bugs/issues in your current project.

- Developed a Rails API backend with endpoints for open issues, closed issues, and issue comments.
- Utilized webpack and Babel for cross-browser compatibility.
- Implemented user interface employing Vanilla JS with Bootstrap for styling.

Neighborhood Tool Time - [Github](#) | [Demo](#)

A marketplace for neighbors to borrow & lend tools or equipment to each other.

- Developed a Ruby on Rails application using Rails 6.0 to allow neighbors to streamline the lending/borrowing of tools.
- Employed both SASS and Bootstrap for styling.

Restaurant Bucket List - [Github](#) | [Demo](#)

An app for reviewing restaurants and creating a bucket list of restaurants you'd like to dine at.

- Developed a Sinatra app for 'foodies' to track and explore restaurants.
- Employed Bootstrap for styling.

TECHNICAL SKILLS

JavaScript, React, Redux, Ruby, Rails, SQL, Sinatra, Bootstrap, Semantic UI, Babel, webpack, VBA
